Nothing can touch you.
No one is your competition.
You are in a league of your own.
Your world is different from the rest.
Because you are and always have been
Worlds Ahead.

Honda Cars India Ltd.

WORLDS AHEAD
The Honda City
It is an unchallenged legacy that has time and again reinvented itself. Every upgrade bringing with it a fresh wave of intuitive technology and exciting design. It is this lineage that today brings you the Honda City. One that is class-defying in features and is the statement of a higher league. One that is worlds ahead of the rest.
The classic Honda City contour is unmistakable but the surprises will thrill you too. It is a design vision that echoes the City’s blue-blooded sedan charm. A look that adds pizzazz and exhilaration to the game. It is an overpowering presence that meets a fresh attitude.
THE FACE OF UNQUESTIONED HERITAGE

One look at the City and you will be convinced about the influence it will have on your social circles. The front fascia comes with a Honeycomb Grille and has curves and sculpted lines that define a bold character. The sheer aristocracy of sedan culture that the City represents, comes thrillingly alive in its features, the exhilarating Sunroof, the elegant Diamond Cut Alloy Wheels, the dashing Auto Folding Door Mirrors and a Shark Fin Antenna. It is an inspired collection of fine points that make an impressive stance on the road.
EYES THAT CAST A SPELL

The City’s sleek LED lights exude a class much above its peers. Sophisticated in design and technologically advanced, the LEDs are futuristic additions to the classic City silhouette. In fact, they also use significantly lower energy. The standard LED DRLs add another dimension of luxurious style. The headlights are designed with innovative and modern styling features that immediately catch the eye. The LED Rear Combi Lamps emit a stronger red luminescence which can be easily noticed from afar and spruce up the rear appearance. The Trunk Lid Spoiler with LED Stop Lamp enhances the illumination in the City. LED Fog Lights cut through low visibility weather conditions and are a smart addition to the look.
THE AURA WITHIN

The craftsmanship in the City creates thoughtful interiors on the Man Maximum, Machine Minimum philosophy. A grand cabin space with ample legroom, rear AC vents, and an ergonomically designed cockpit, all come together to make your ride truly classy.
Honda pursues an easy-to-see/easy-to-use "Advanced Interface" by adopting advanced technologies. Experience superior ergonomics with the asymmetrical dashboard that is inspired from airplane cockpits and is centred around the driver. All of the controls are intuitively placed and can be accessed with just a touch of the finger. The asymmetric design is a Honda aesthetic that beautifully combines the functionality loaded with new age gadgetry and the design grandeur of a car that comes with legacy. Each of these are designed with an intent to keep your driving safe and convenient.
A WORLD, SOCIAL
AND CONNECTED

The advanced floating DIGIPAD 2.0 will take connectivity to another level. It comes with a host of advanced functionality like navigation, messaging, music and more. Seamlessly connect your drive with your smartphone enabled digital lifestyle through intuitive and easy-to-use controls. Unlock the wonders of iPhone through Apple CarPlay. You can also connect Android phones with Android Auto. The rear camera display for easy parking is yet another convenience on this infotainment hub.

POWERING WORLDS

Worlds are waiting to be conquered. And power is crucial to that victory march. Experience the throbbing heart of Honda technology in their i-VTEC and i-DTEC avatars.

THE 1.5L i-VTEC

The refined 1.5L i-VTEC petrol engine strikes an immaculate balance by providing an impressive power of 119 ps combined with a mileage of 17.4 km/l in the manual transmission. The new Continuously Variable Transmission (CVT) with torque converter, on the other hand offers first-in-segment 7-Speed Paddle Shift technology with a high fuel efficiency of 18.0 km/l that makes it fun to drive and more efficient than the manual transmission.

THE 1.5L i-DTEC

The 1.5L i-DTEC gives a high mileage of 25.6 km/l and max power of 100 ps. Available in the blazing 6-Speed MT, it’s an all-aluminium construction that runs on low friction technology and thus, lets you drive with perfect efficiency.

CVT

If it’s an automatic, it’s got to be a Honda. Here’s why. Automatic transmissions that use gears need to switch between gear positions, while CVT does not. Since power from the engine is continuously fed to the tyres, the ride is smoother.

Engines have a speed range in which they are most efficient. CVT keeps the engine running within this range, improving fuel economy. Continuously Variable Transmission is Honda innovation at its best. This innovative Honda Original, CVT is developed as part of “Earth Dreams Technology”. With 7-Speed Paddle Shift and the CVT in your Honda City you can be assured you are travelling worlds ahead of most other automatics.
A SAFER WORLD

Every Honda car takes great pride in bringing the most updated safety practices. Multiview Rear Parking Camera keeps every bit of the City safe from scratches and dents. Auto Headlamps with Auto-Off Timer provide added safety. Rain Sensing Wipers keep driving uninterrupted and a sudden change in weather and visibility during rain is no longer a threat to safety. Not only is the City designed to safeguard you it does a great job of keeping your car safe from damage. Honda City introduces safety that’s worlds ahead in its class.

6 AIRBAGS
(Dual Front, Side & Curtain)

While it was always the safest car, the City takes safety to a new level by introducing six airbags. Testimony to Honda’s commitment to creating a safer driving experience in every car.
CROSS WORLDS CONVENIENTLY

Convenience is ingrained in every angle in the City. As you comfortably settle in, you will find various nooks and corners that tuck in your world along with you. The driver’s armrest opens up to a small storage space. Cup holders are placed in the front and rear, there are pockets nestled into the body for various knick knacks, space for bottles and great luggage room in the boot. There’s always a utility space that pops up in every side of the City. The Honda City optimizes space to the hill. Not only does it maximize room for a settled journey and comfortable drive, it also maximizes storage in the boot. The City is all set to welcome your world. Cabin space has always been a legacy with the City and this upgrade lives up to its lineage every bit.
