### **HCIL to recall 3879 units of CVT variants of Honda City to update CVT control software**

**New Delhi, 23 October 2015:** Honda Cars India Ltd (HCIL) today announced that it would voluntary recall 3,879 units of CVT variants of Honda City manufactured from Feb'14 to Nov'14 to update the software that manages the continuously variable transmission (CVT) as part of Honda's recall campaign in several regions globally. The CVT control software will be updated to optimize the Hydraulic Pressure applied to the CVT.

The software will be updated free of cost at HCIL dealerships across India from 24<sup>th</sup> October 2015 and the company will communicate with customers directly. The customers can also check whether their car is covered under this campaign by submitting their 17 character alpha-numeric Vehicle Identification Number (VIN) on the special microsite which has been created on the company's website ([www.hondacarindia.com](http://www.hondacarindia.com)).
