### **Honda Cars India registers domestic despatches of 7,269 units of BS-6 vehicles in February 2020**

**New Delhi, 1<sup>st</sup> March 2020:** Honda Cars India Ltd (HCIL), leading premium car manufacturer in India, today announced that it despatched 7,269 BS-6 units in February'20 in domestic market that included petrol variants of Amaze, City, Civic and CR-V. With despatches of BS-6 Diesel Amaze scheduled to begin from this month, the company is in the process of sequentially introducing BS-6 variants in rest of its model line-up in future.

The number of export units stood at 64 units last month.

Commenting on the sales, **Mr. Rajesh Goel, Senior Vice President and Director – Marketing and Sales, Honda Cars India Ltd.** said, "Our despatches were limited and in line with our plan of total supply availability for the month. We are determined to enhance the supplies with subsequent introduction of BS-6 versions of other models and bring down the waiting period for our customers. Since we have been supplying only BS-6 cars from Jan onwards and dealers were aggressively liquidating their BS-4 stock, our channel is left with negligible stock of BS-4 cars as of Feb end."

The company's dealership network cleared the residual BS-4 stock last month. HCIL has been producing only BS-6 models in both its plants since Jan'20.

The company had sold 13,527 units in the domestic market in February 2019.

#### **About Honda Cars India Ltd.**

Honda Cars India Ltd. (HCIL), a leading manufacturer of premium cars in India, was established in December 1995 with a commitment to provide Honda's latest passenger car models and technologies, to the Indian customers. HCIL has two state-of-the-art manufacturing facilities at Greater Noida, U.P and at Tapukara, Distt. Alwar, Rajasthan.

The company's product range includes Honda Jazz, Honda Amaze, Honda WR-V, Honda BR-V, Honda City, Honda Civic and Honda CR-V, which are manufactured in India. The Accord Hybrid is sold as a Completely Built Unit (CBU) imported from Thailand. Honda's models are strongly associated with advanced design and technology, apart from their established qualities of durability, reliability and fuel-efficiency. The company has a strong sales and distribution network with 375 facilities in 263 cities across spread across the country.
