

# HIGH SECURITY REGISTRATION PLATE (HSRP)

High Security Registration Plate (HSRP) is a standardized license plate designed to enhance vehicle security and prevent fraud. It includes:

- **Tamper-Proof Features:** Holograms, identification numbers and bar codes make duplication difficult
- **Reflective Material:** Improves visibility and readability in various lighting conditions
- **Laser-Engraved Information:** Prevent forgery and ensure authenticity
- **Standardized Format:** Consistent design mandated by authorities for easy identification
